## INVESTOR EXCEEDS 90 PERCENT OF THE SHARES IN EXPORT-INVEST

Investor has received acceptances of its offer to the shareholders of AB Export-Invest to the extent that Investor's holding amounts to 96.6 percent of the number of shares in Export-Invest, with 96.6 percent of the voting rights of all the shares.

In order to allow those shareholders who have not yet accepted the offer to tender their shares in return for newly issued Investors shares, Investor has extended its offer through May 20, 1994. Following the extended application period, Investor intends to request the compulsory redemption of any outstanding shares in Export-Invest.

Provided that the Annual Meeting of Investor on May 19, 1994 approves the Board of Directors' decision for a new share issue, the offer will be implemented by commencing settlement for the shares tendered during the initial and extended application periods, respectively. Settlement is expected to commence on June 1, 1994.
