Curriculum Vitæ for Bengt Halse

Born in 1943.

Graduate engineer (engineering physics) and Licentiate of Technology (applied thermodynamics and fluid mechanics) at Chalmers University of Technology.

Appointed to the Ericsson Group in 1974. Manager of microwave communication activities since 1985.

Manager of the Aerospace Electronics Division at Ericsson Radar Electronics AB in 1988, and Executive Vice President of the company with responsibility for its operations in Mölndal and Borås (aerospace electronics, land-based and marine radar, optronics and microwave communications).

Manager of business area Defense Systems at Ericsson and President of Ericsson Radar Electronics AB in 1991. When Ericsson's operations in defense communications were integrated with business area Defense Systems on 1 January 1995, the business area was renamed Microwave Systems.
