PRESS RELEASE

Claes Dahlbäck at Investor's Annual General Meeting

Return on investment in Saab-Scania
Expected to amount to more than 25% per year

Following are excerpts relating to Saab from the address delivered by Claes Dahlbäck, president and chief executive, to shareholders at the company's Annual General Meeting.

"With the planned listing of Saab AB, we have taken a step closer in the restructuring and streamlining of Saab-Scania, which commenced, in point of fact, with the sale of 50 percent of Saab Automobile to General Motors in the autumn of 1989," Mr. Dahlbäck said.

Mr. Dahlbäck noted that it was still too early to calculate how profitable Investor's investment in Saab-Scania has been, since the ownership position in Saab Automobile may change in the next few years. "In addition," he stressed, "we do not know how Saab AB will be valued; in the current situation, this transaction appears to have been highly satisfactory for Investor and its shareholders."

"Even with a cautious estimate of the value of both Saab Automobile and Saab AB, the return is more than 25 percent a year, which is considerably better than if we had invested the corresponding sum on the stock exchange," he said.

Stockholm, April 20, 1998.
