PRESS RELEASE

INVESTOR AB ISSUES 10 YEAR NOTE FOR 500 MDEM

Investor AB has today decided to launch a 10 year 500 million Deutsche Mark Eurobond. The note was issued within Investor AB´s Euro Medium Term Note Programme that was signed in December last year. The deal will be priced later today at 55 basis points over the ten year German Bund. The proceeds will be used to replace maturing debt.

The first half of 1998 has seen historically low interest rates throughout Europe, while the Eurobond market has offered increasingly tightened credit margins to corporate issuers. This, together with the advent of the Euro and Investor AB's decision to diversify the debt funding in terms of geographic coverage and investor categories, lead to the decision to launch a DEM bond.

Earlier this year, in March, Investor AB issued a 5 year note for 300 million US dollars.
